Architect/Engineer Signature:	Date:
INSTRUCTIONS:	
<p>• Complete Form: The Registered Design Professional (Architect/Engineer) shall complete this form and submit it with the Building Permit Application for review and approval by the Building Department prior to the issuance of the Building Permit (Sections 107.1, 1704.2.3, 1704.3 and 1705). This form will be attached to the approved approved plans that shall be on site for all inspections.</p> <p>• Provide Qualifications: Please refer to the "MINIMUM QUALIFICATIONS FOR SPECIAL INSPECTORS", posted on the Building Department website under "Special Inspection and Program" at www.dewitttownship.org. Each party involved with the Special Inspection and Testing process shall meet these minimum qualification standards (Sections 1701, 1702, 1703, 1704 and 1705). Please provide the appropriate documents that verify the qualifications of each individual or firm listed. This should include all current Education, Experience, Certifications and Accreditations required for each Special Inspector, Special Inspection Agency and Fabricator Shop. Information shall also be provided outlining the qualifications of any Testing Labs (soils, concrete, masonry, steel, and others) being used for the project. This includes information about the Accreditation of the Testing Lab, names and qualifications of each designated Laboratory Technician, and verification of the calibration of each piece of equipment used in the testing.</p> <p>Special Inspection Categories: Please provide all the categories that apply to your project below and enter the name of each individual responsible for the special inspection.</p>
